"Infusing Technology into the Classroom"

Password Protected Screen Saver – Staff only

To enhance security and comply with current legislation we are enabling password protected screensavers on all computers for staff.

- After 90 minutes of inactivity your computer will automatically display the Windows XP screen saver (Illustration 1).

Illustration 1

- Any key or mouse activity will bring up the windows welcome screen (Illustration 2)

Illustration 2

- Press Ctrl-Alt-Delete at the same time and the Windows Logon Screen will appear (Illustration 3).

- Enter your network password and press **OK**. Your windows desktop will reappear as you left it.

If you encounter a problem, please contact your school based technology contact for assistance.
