MCS Parents:

Moore County Schools offers a Parent Portal, which may be used to view student grades, attendance and other academic information online. This portal is being offered through PowerSchool, the North Carolina Student Information Management System. We believe that Parent Portal is a valuable resource for parents. Parent Portal provides a live look into student progress, including assignments, grades and attendance. The parent portal provides parents and guardians access to all their students’ information with a single log on.

In order to receive access to Parent Portal, parents/guardians are required to do the following:

1. Fill out an application for each of your students at each of their schools. Parents/guardians with students in more than one school will be required to fill out a separate application for each school. Please note that this is a necessary step. Due to the nature of PowerSchool, each school can only issue access to students enrolled in that school. We apologize for the inconvenience of requiring multiple applications

2. Consent to follow the MCS acceptable use agreement. (acknowledge on application)

3. Take the completed application to the school where the student is enrolled

4. Provide photo ID to the school when the form is returned

After completing and returning the application as directed, parents/guardians will receive their information and directions for how to login and set-up their accounts.

Information about the Parent Portal and application forms can be found on the Moore County Schools’ website under Parent/Student Resources.

This tool is an example of our commitment to ensure quality communication between school and home. Please contact your child’s school with questions regarding Parent Portal or for assistance with your application.

Thank you,

Moore County Schools
